Profile

Remote Senior UI/UX Front-End Web Developer, working with open web technologies. With a deep passion for keeping my craft sharp along with a focused eye on aesthetics, nuances, CSS, JavaScript (ES6-Next), ReactJS, Interactive Design, and UX Animation.

Skills

HTML5, CSS3, JavaScript, ES6, Next, ReactJS, Redux, Sass, Bootstrap, Webpack, Node, npm, Express, MongoDB, Jest, Storybook, Gatsby, GraphQL, JAMStack, Netlify, Accessibility (A11Y Project), Semantic HTML, and SEO.

Experience

Senior UI/UX Developer Consultant, iPAINTCODE, LLC; Dec 2016 - Present

Currently working on various complex development projects including but not limited to Front-End, UX Interaction, and prototypes. Over the past two years, working on small and large distributed development teams, using Agile/ Scrum supporting HPE Cloud28+, Ford Shopping Tools, Leo Burnett, and GMC UX Dev workflow. Tasks include CSS3 StyleGuides, UX Animation, Prototyping, ReactJS, Redux, Node, Express, and Sass.

Mentor + Tech Evaluator, Thinkful Code Bootcamp; Dec 2016 - Present

Part-time mentor for the Engineering Immersion course and Technical Evaluator for the Prep course. Based on ES6, ReactJS, Redux, Jest, and NodeJS. Hold Q&A and Workshop sessions, focusing on JavaScript, ReactJS, Redux, and advanced CSS3 including @keyframes animation, transitions, transforms, flexbox, and grid layout.

Senior Front-End Web Developer, CÜR Media, Inc.; May 2015 - Dec 2016

Worked on a distributed team with an HTML5, CSS3, and JavaScript, including handlebars, lodash, bluebird, NodeJS, Express, GruntJS and many JS libraries managed through npm. Worked on our backstage tool using VueJS. Prototyped a ReactJS/Redux based standalone embedded web music player. Also, maintained the JIRA sprint web board and poker sessions within an Agile workflow.

Senior UI/UX Developer, BondDesk/Tradeweb; Jun 2014 - Mar 2015

Developed new UI features using HTML5, CSS3, and JavaScript in an Agile/Scrum environment. Responsible for supporting defects within our 3 ExtJS web applications. Worked closely with the product team designing UI brands and StyleGuides for new products.

Senior JavaScript UI Developer - MOTOR Information Systems; Oct 2013 - Jun 2014

Worked with a team of developers building a single page application using Bootstrap, Backbone, Marionette, Underscore, and jQuery. Maintained {less}, HTML5 templates and was tasked with cleaning up and optimizing. Created font icon libraries to replace the plethora of sprite maps, and unoptimized png and vector-based icons.

Creative Technologist/Senior Flash Developer, Team Detroit; Oct 2006 - Oct 2013

Responsible for HTML5, CSS3 and JavaScript projects within the digital creative group. Tasks included developing fully functional prototypes, pro-bono projects, mentoring Developers and solving UI/UX problems. Built and maintained Team Detroit's marketing site and much other internal company related projects.

Tools

macOS, VSCode, GitHub, iTerm, brew, Postman, Chrome DevTools, Trello, Sketch, Ulysses, JIRA, and Slack.
